

Simple, robust magnetic ballast

HID-High Power ballasts for MH lamps

The HID High-Power ballast is an impregnated (HID standard) electromagnetic copper/iron ballast for use with an external ignitor for HID lamps.

Benefits

- Limited volume of ballast coil; also lightweight
- Simple installation and cabling

Features

- Orthocyclic winding process
- Ballasts equipped with screw terminal blocks as standard
- Earthing-while-mounting facility (HID Standard ballasts)
- Low watt losses

Application

- For use with MHN lamps in sports, public, area and floodlighting
- HID-Basic ballasts should be restricted to built-in situations where relative humidity is limited.

HID-High Power ballasts for MH lamps

Versions

GPPR HPMH
