1. Pull field wires through the pole top tenon allowing sufficient length of leads above the pole top tenon to make electrical connections.
2. Remove (4) #8-32 top cover retaining screws and remove yoke top cover.
3. Fit yoke assembly onto the pole top tenon. See page 2 if adapter is required.
4. Determine desired orientation of luminaire and secure in position with (4) 1/4-20 allen set screws.
5. Splice field wires to luminaire leads (input and grounding) and secure inside pole top tenon with wire tie(s) (by others).
6. Replace yoke top cover on yoke assembly and secure using (4) #8-32 screws.
7. Installing photocontrol (where applicable). Loosen two screws on top of photocontrol receptacle and rotate receptacle until "North" arrow on receptacle points North. Make sure receptacle is centered in its mounting hole tighten screws and install photocontrol.
8. Install bird deterrent if applicable, (See page 3).
9. Energize system.
**INSTALLATION INSTRUCTIONS**

SFRP - YOKE MOUNT ON Ø 2-3/8" X 4" TENON
