

Lowbay200

Lowbay 200 HBK/HCK/HPK200

Philips LowBay 200 luminaires are particularly effective in commercial and industrial spaces with lower ceiling heights ranging from 4 to 6 meters. These luminaires provide optimal luminosity over smaller areas, creating a safer, more conducive work environment. Offering crisp bright light and a high color rendering index, LowBay 200 provides excellent visibility which improves safety as well as the appearance of your facility. Unique to its design is a waterproof external connector making installation a breeze while its quick-release steel toggles facilitate trouble-free maintenance. Combining superior illumination with easier than ever installation and maintenance truly makes the new Philips low bay luminaire an easy choice.

Features

- External connector (WEC) to facilitate installation
- Maintenance is virtually trouble-free by simply releasing its steel toggles
- Its 3D lighting system directs light to selected vertical planes so that industrial workplaces and retail stores are well illuminated
- A wide range of accessories come supplied with the luminaire to give light in the quantity and quality suited to your requirements
- A special screw in the surface mounted model is used to fix the plate and luminaire onto the surface, preventing the luminaire from shaking and falling down

Application

- Industrial workspaces
- Automotive assembly lines
- Warehouses and power plants
- Indoor public spaces
- Retail stores and petrol stations
